Dear Heather,

Re: Brockenhurst Brookley Road Active Travel Scheme

I am pleased to attach a copy of a drawing showing the proposed layout for the above scheme which is being designed following feedback from public engagement last year.

The scheme will widen the pavements and create a raised area of carriageway between Tesco and the Terrace Café which will improve pedestrian movement, reduce traffic speeds and create a sense of place in this busy area of the village.

Whilst carrying out the design we have identified some limitations with the existing drainage in this area and we have to make sure that the proposals will work within this. Unfortunately, this extra design work has delayed us slightly, but we are still planning to carry out the improvements later this year, pending the final approval to the revised design.

We appreciate that this scheme has taken some time to come to fruition, and your patience is appreciated.

Once the main scheme has been completed, I am aware that the Parish Council are keen to deliver additional street furniture in the area to benefit cyclists and pedestrians. We will be able to discuss this further once the new space is created.

If you receive any comments on the proposals, please do not hesitate to contact me,

Yours sincerely

John Harvey
