Dear Heather,

Re: Brockenhurst Brookley Road Active Travel Scheme

I am pleased to confirm the Project Appraisal submitted for Delegated Decision Day on December 9th was signed off to approve the delivery of Active Travel Fund (ATF) Brookley Road, Brockenhurst.

The scheme was approved to deliver the following new infrastructure:

- A raised area of carriageway outside Tesco on Brookley Road.
- Continuous Footways over the junctions of Tesco and the public car park.
- New traffic bollards to define the route through the new raised area.
- Tie in of the surfacing outside Tesco to match the block paving on the Northern side of Brookley Road.

Works to carry out drainage repairs and improvements will need to take place prior to the start of the ATF construction, this is to ensure that future maintenance of the drainage does not impact the new infrastructure. Both maintenance repairs and the construction of the new ATF scheme will take place in Spring 2025.

We appreciate that this scheme has taken some time to come to fruition, and your patience is appreciated.

Yours sincerely
